# How to separate and dispose of waste/recyclables in

Toyoyama Town  
FY 2017

Please contribute to waste recycling and reduction by separating waste.

Please drop off the garbage at the collection site by 8:30 a.m. on the collection day.

Burnable waste	<p>Kitchen garbage should be drained of water. Plastic bags, soft plastic products are also collectable as burnable waste in designated bags.</p> <p>We only collect the garbage in the designated bags.</p>	<p><b>Collection day</b> Area 1 Tuesdays and Saturdays Area 2 Mondays and Fridays We collect on holidays as well.</p>
Non-burnable waste	<p>If you cannot judge whether the waste is burnable or non-burnable, please dispose of it as burnable.</p> <p>We only collect the garbage in designated bags.</p> <p>We will not collect the bag if recyclable materials are inside.</p>	<p><b>Collection day</b> Area 1 The 1st, 3rd, and 5th Thursday Area 2 The 1st, 3rd, and 5th Wednesday We collect on holidays as well.</p>
Recyclable materials	<p><b>Empty cans</b></p> <p>Aluminum cans should be squashed prior to disposal, not punch a hole in spray cans.</p> <p>Steel cans, spray cans, tea canisters, candy cans and milk cans can be collected.</p>	<p><b>Collection day</b> Area 1 The 2nd and 4th Thursday Area 2 The 2nd and 4th Wednesday Please take the garbage to the appointed site. (For the appointed sites, refer to the map on the reverse side.)</p>
	<p><b>Empty bottles</b></p> <p>Transparency Brown Blue/green Black Beer bottles, sake bottles, 1.8L bottles. (Please do not dispose of cracked beer bottles.) Bottle with a cap, which can contain food or drink.</p> <p>Glass, light bulb, bottle of cosmetics and agricultural chemical, glass sheets, fluorescent lamps, non-burnable waste.</p>	<p><b>Common elements</b> 1. Quickly rinse out/off the item. 2. Remove lid or cap. 3. Take the item to the drop-off site in a designated container. <b>Reminder</b> 1. Only aluminum cans marked with the recycling triangle can be recycled. 2. Crush aluminum cans before disposal. 3. Empty spray cans. Do not punch a hole in them. 4. If you are confused as to what color a bottle is, use the color of the bottom. *Please be careful with light blue bottles. 5. Plastic bottles marked with the recycling triangle can be recycled. 6. Do not crush plastic bottles. 7. Plastic containers and wrappers marked with the recycling triangle can be recycled.</p>
	<p><b>Paper packages</b></p> <p>Mainly milk packages. Rinse out the contents, cut through and dry. With aluminum foil, with a plastic cap. Burnable waste.</p>	
	<p><b>Plastic bottles</b></p> <p>Only products with this mark. (Bottles with a concave base). Please do not squash pet bottles. Remove the cap. Rinse out the contents lightly. Cooking oil and tempura oil. Burnable waste.</p>	
	<p><b>Food trays</b></p> <p>Subject for white styrene foam trays. Rinse out contents lightly and dry. Colored and printed trays will be collected as plastic containers and wrappers. Paper trays, containers for noodles. Burnable waste.</p>	
	<p><b>Plastic containers and wrappers</b></p> <p>Food containers. Greasy materials. Only products with this mark. Remove the bottle pump and dispose as burnable waste. Bags with aluminum inside. Burnable waste.</p>	
	<p><b>Styrene foams</b></p> <p>Cushioning materials used for packages of electrical products and other food container boxes. Remove seals and tapes. Rinse out the box lightly.</p>	
	<p><b>Hardware</b></p> <p>Small hardware, such as pots, kettles, fry pans, spoons and household electrical appliances of a size that can be stored in a bag for non-burnable waste, such as oven toasters, portable cooking stoves and electric cords. Fan heaters, stoves and gas cookers are included in the category of large-size waste.</p>	
Large-size waste	<p><b>Papers and clothes</b></p> <p>Newspapers and fliers, corrugated cardboard, magazines, used clothing (Cotton products including jeans (except underwear), Wool products including suits).</p>	<p><b>Collection day</b> All area The 3rd Sunday Please take garbage to the appointed site in the morning of the collection day. *To prevent the risk of arson.</p>
	<p><b>Large-size waste</b></p> <p>Put a sticker on a prominent place. Tatami mats should be cut in half. Springs must be taken out. Materials that do not fit into the designated bags are disposed of as large-size waste. TVs, air conditioners, refrigerators and washing machines cannot be disposed of as large-size waste.</p>	<p>Apply to town hall. (Phone: 28-0916) Buy a large-sized waste disposal seal at a store. (#510/1 seal) It will be collected a week following the day you apply. Please take large-sized waste to the designated location on the collection day. There is a limit of 5 items per time.</p>
Self-disposal waste	<p>Things over 1.5m. General waste from business activities. Waste from business activities including shops, offices, and restaurants. Return to manufacturers/stores or get advice from wood processors. Wood (more than 5cm around, more than 50cm in length) moving.</p>	
Hazardous waste	<p>Degas gas cartridges and cooking stoves and space heaters are large-size waste. These cannot be disposed of as non-burnable waste, due to fire risk.</p>	
Batteries	<p>Collection boxes are set at public institutions and stores. Please do not put batteries in plastic bags when you throw into the collection boxes.</p>	

## Waste and resource collection ~ Follow the rules ~

There are rules governing how to dispose of garbage. Not following the rules will be a nuisance to others and cause problems.

Check how to separate waste, sites and dates for disposal of waste.

Waste is classified into 4 categories. Be aware that there are separate procedures to dispose of waste in each category.

1. Burnable waste (Food, paper, etc.), Non-burnable waste (glass, pots, etc.)

• Burnable and non-burnable waste should be placed in plastic garbage bags designated by the town and be left at the collection site by 8:30 a.m. on the collection day.

• Collection day varies depending on the residential area.

• Check the collection route, residential area, and collection day at the town hall.

• Plastic garbage bags designated by the town are sold in local supermarkets and convenience stores.

• We do not collect plastic garbage bags containing recycling materials.

The following figure illustrates garbage bags designated by Toyoyama Town. Waste must be placed in these bags.

Be sure to put the garbage in a town-designated bag and tie it closed when you take out the garbage.

## Access

You can go to various places from Toyoyama Town.

How to get to Sakae in Nagoya city?

(1) Use the Toyoyama Town Bus, South route (Approx. one every hour)

Get on from stops in the town. It takes 30 to 40 minutes to Nagoya Sakae, Aichi Kencho (Prefectural Office) Mae, and Kurokawa.

Figure. Non-burnable garbage plastic bags (Pink)

2. Large-size waste (Beds, bicycles, etc.)

• Consult with the town hall before disposing of waste does not fit in the designated bags.

• Note that we may not collect certain types of refrigerators, washing machines, cloth driers, air-conditioners, personal computers and motorcycles. Contact the Town Hall in advance.

3. Recyclable materials (Empty cans, empty bottles, milk packages, plastic bottles, etc.)

• Please take the garbage to the appointed site by 8:30 a.m. on the collection day.

• Collection dates and sites vary depending on the residential area.

4. Batteries and used lighters

• Dispose of batteries in the collection boxes established at public institutions, electric appliance shops, and supermarkets.

• Used cigarette lighters should be placed in the designated recycling box at the Recycling Corner in the lobby on the 1st floor of the Town Hall, or at recycling stations.

5. Caution!

Spray cans and gas cartridges must be used completely taken out as recycling materials without a hole punched in them.

Contact the Environmental Conservation section of the Toyoyama Town hall (Tel: 0568-28-0916) for more information including how and where to dispose of waste.

(2) Use the Nagoya Airport direct bus (Approx. two every hour). Get on at stops in the town. It takes about 15 minutes to Nagoya Sakae.

How to get to Nagoya Station?

(1) Use the Nagoya Airport direct bus (Approx. two every hour). Get on at stops in the town. It takes about 30 minutes to Nagoya Station. (Approx. two every hour)

(2) Meitetsu Bus, Nagoya Airport-Nishiharu line. (1 to 2 buses every hour)

Get on at stops in the town. It takes about 50 minutes to Nagoya Station by changing at Nishiharu Station.

How to get to Komaki city?

Use Toyoyama Town Bus, North route (Approx. one every hour). Get on from stops in the town. It takes 15 to 30 minutes to Komaki Shimin Byoin (Komaki City Hospital) and Komaki Shiyakusho (Komaki City Hall).

How to get to Nishiharu Station?

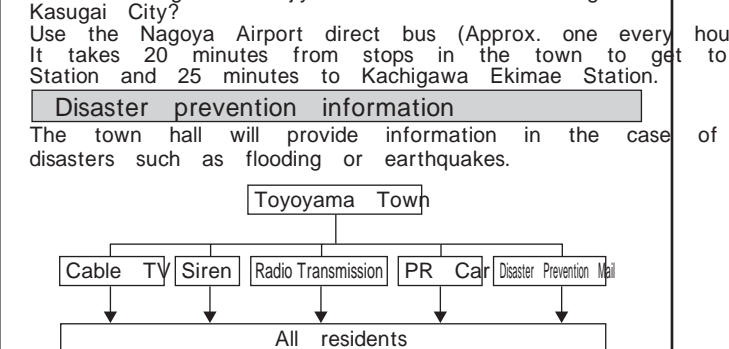

Use Meitetsu Bus, Nishiharu-Airport line (Approx. two every hour). Get on from stops in the town. It takes about 10 to 20 minutes to Nishiharu Station.

How to get to Ajiyoshi Station and Kachigawa Station in Kasugai City?

Use the Nagoya Airport direct bus (Approx. one every hour). It takes 20 minutes from stops in the town to get to Nagoya Station and 25 minutes to Kachigawa Ekimae Station.

**Disaster prevention information**

The town hall will provide information in the case of disasters such as flooding or earthquakes.

\* If an evacuation call or instruction is issued, follow the instructions and evacuate immediately.

(Check the evacuation sites with the map on the reverse side.)

\* The Earthquake and Disaster Prevention Map and Flood Hazard Map are available at the Town Hall.
